16-year-old Australian Begins Her Solo Adventure

A 16-year-old Australian girl sailed her yacht out of Sydney harbour today, beginning an attempt to become the youngest person to single-handedly navigate the globe unassisted, despite concerns over her age and expertise. If all goes to plan, Jessica Watson will spend the next eight months alone on board her 10-metre vessel, navigating 28.000 miles through some of the world's most dangerous seas.

Around 100 boats gathered under grey skies in the harbour to see her off. Watson did not speak to reporters before she left, but her mother, Julie, posted an update on the solo sailor's blog. "I know you are all anxious to hear from Jess, but she's a little preoccupied on her first day, so she asked me to post a quick note to let everyone know that the departure went well this morning." she wrote.

While Watson's family insists the teenager is a sufficiently skilled and experienced sailor, with expertise in navigation, electronics and maritime safety, her plan has sparked a debate in Australia about whether someone so young is ready for such a challenge. There was further worry after Watson's yacht collided with a Chinese cargo ship last month.

Some of Australia's most experienced sailors, and the government of Watson's home state, Queensland, have urged her not to go ahead with the voyage. Watson will be in contact with her family and support team via radio and email, as well as updating her blog. "I think a lot of Australians are nervous for Jessica. I'm nervous for her," the country's deputy Prime Minister, Julia Gillard, told Nine Network TV, "Since she's determined to go, I wish her the best of luck and urge her to keep safe."

A British 17-year-old, Mike Perham, became the youngest solo round-the-world sailor in August following a nine-month voyage, although a stop for repairs '*en route*' meant his trip did not count as unassisted. The youngest sailor to complete the voyage unassisted is another Australian, Jesse Martin, who was 18 when he completed it in 1999.

AMAZON PARROTS

Amazon parrots are native to the New World. Indeed, (17) that he brought back to Europe after his first voyage here. There are 27 species of Amazon parrot. Most parrot species are bred successfully in captivity and several types of Amazons are available from breeders and pet stores here in Canada. Prices generally range, depending on the species, from \$800 to \$1600, (18)

Amazon parrots are very good at talking and imitating sounds. One test subject, Alex - a parrot, can name about 40 objects, identify seven different colours, and say whether two objects are the same or different; and indisputably, (19) Studies put the intelligence of these feathered chatterboxes on the same level as three-year-old humans, dolphins and monkeys.

Amazons are actually very similar in personality to monkeys. Parrots are very energetic, playful, social creatures that crave lots of interaction with their human owners. The best pet birds are hand-raised and have bonded early with human companions. More than other parrot species, (20) They can be, at different times, loud, quiet, stubborn, silly, playfully aggressive or irritable. They will play and fight with their toys for hours on end (21) Sometimes, an Amazon may temporarily become quite aggressive. Careless owners have had fingers or ears bitten.

You really have to understand your bird's moods and behaviours (22) Amazon parrots are definitely not for all pet owners, they need much more love and attention than most people would expect. Owning an Amazon is very similar to owning a dog with wings.

Choose from (A-H) the one which best fits each space (17-22).

There are two choices you do not need to use.

Write your answers on the separate answer sheet.

- A** with a premium paid for the breeds that are considered to be better "talkers"

- C** the research has clearly shown that it is very intelligent and will speak in context
- D** as the trickier aspect of owning an Amazon parrot

- F** Christopher Columbus himself apparently gave the name "Amazon" to the green, short winged parrots
- G** they also love being around people, and they are particularly good at speaking
- H** Amazons are well known for their strong or often moody characters

Advertising has a long history in North America. As early as the 1600s, ads were used to (25) English settlers to the Colonies. According to historian Daniel Boorstin, these brochures (26) "hopeful overstatements, half-truths, and downright lies..."

In the 1700s famous (27) were involved in the advertising business, (28) them Benjamin Franklin, who ran ads in his publications. And with the boom in mass-circulation magazines, the advertising became the powerful force it is today. Television arrived in the 1940s and (29) a new, action-packed advertising medium.

Creating a good ad isn't as (30) as it might seem. One key is to find the right spokesperson. An effective approach is to have the company president speak. Still another option is to create (31) characters, such as the Speedy Alka-Seltzer fellow, or an animated parrot (Gillette).

A memorable slogan is helpful as well: "I can't (32) I ate the whole thing"; "Where is the beet?"; "You deserve a break today".....

Dear,

Як визначаються результати зовнішнього незалежного оцінювання з англійської мови?

Визначений результат зониш нього незалежного оцінювання абітурієнта здійснюється поетапно.

На першому етапі, за підсумками автоматизованої обробки бланків відповідей типу А та перевірки екзаменаторами відповідей на бланках Б визначається тестовий бал кожного з абітурієнтів - арифметична сума балів, отриманих абітурієнтом за правильне виконання кожного з завдань тесту з англійської мови.

На другому етапі тестові бали, отримані абітурієнтами конвертуються в оцінки за шкалою 100-200 балів (числа інтервалу від 100 до 200 з кроком 0.5) методом еквіпроцентильної нормалізації, що застосовується до всієї сукупності тестових балів абітурієнтів, які брали участь у зовнішньому незалежному оцінюванні з англійської мови. Оцінка за шкалою 100-200 балів є рейтинговою, тобто вказує місце результату тестування абітурієнта серед результатів інших абітурієнтів.

Рейтинговий бал визначається окремо з кожного предмета та кожної сесії зовнішнього незалежного оцінювання. Абітурієнти, які набрали однакову кількість тестових балів, отримають однакову оцінку за шкалою 100-200 балів, водночас абітурієнти із більш високими тестовими балами отримають вищу оцінку за цією шкалою. Абітурієнт, який набрав найбільшу кількість тестових балів, матиме найвищу оцінку - 200 балів.

У день оголошення результатів зовнішнього незалежного оцінювання 2012 року з англійської мови на офіційному веб-сайті Українського центру оцінювання якості освіти будуть розміщені таблиці відповідності кількості тестових балів оцінці за шкалою 100-200 балів.

Кожен учасник пробного зовнішнього незалежного оцінювання з англійської мови може самостійно визначити кількість тестових балів, набраних під час проходження тестування, скориставшись схемами підрахунку тестових балів за виконання завдань різних форм.

1. За виконання тестового завдання на встановлення: відповідності (№ 1-5, 11-16) учасник може отримати 0 або 1 тестовий бал: 1 бал за правильно встановлену відповідність; 0 балів, якщо правильної відповідності не встановлено або відповіді не надано.

2. За виконання тестового завдання з вибором однієї правильної відповіді (№ 6-10) нараховується 0 або 1 тестовий бал: 1 бал, якщо вказано правильну відповідь; 0 балів, якщо вказано неправильну відповідь, більше однієї відповіді або відповіді не надано.

3. За виконання тестового завдання на заповнення пропусків у тексті (№ 17-42) нараховується 0 або 1 тестовий бал: 1 бал, якщо вказано правильну відповідь; 0 балів, якщо вказано неправильну відповідь, більше однієї відповіді або відповіді не надано.

Завдання № 43 - завдання з розгорнутою відповіддю - оцінюється від 0 до 20 тестових балів (див. Критерії оцінювання власного висловлення з англійської мови).

Максимальна кількість тестових балів, яку може отримати учасник пробного зовнішнього незалежного оцінювання, правильно виконавши всі завдання тесту з англійської мови, - 62.
